

RAHUL KHEDKAR

Software Development Engineer

☎ +91-7999831454 ✉ rahulkhedkar1454@gmail.com 🔗 linkedin.com/in/rahulkhedkar454

Summary

Software Development Engineer with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Computer Science fundamentals. Experienced in building scalable backend services, optimizing SQL queries, and developing production-ready full-stack applications using JavaScript, Java, and modern web technologies.

Skills

Programming & Problem Solving: JavaScript (ES6+), Java, SQL, Data Structures & Algorithms

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Auth

Database: PostgreSQL, MongoDB, Drizzle ORM, NeonDB

DevOps & Cloud: Docker, GitHub Actions, CI/CD, Git, Postman, Vercel, Gemini AI SDK

Core CS: OOPs, DBMS, Operating Systems, Computer Networks, System Design

Experience

Software Development Engineer Intern

Nov 2024 – May 2025

GeekBase Technology (Remote)

- Designed robust RESTful APIs and improved backend API response time by **20%** through advanced SQL query optimization and indexing.
- Built **10+ reusable UI components** using React.js & Tailwind, reducing UI duplication by **40%**.
- Improved Lighthouse performance scores by **12%** via implementing lazy loading and optimizing image assets.
- Collaborated within a 3-member **Agile team**, actively participating in sprint planning, code reviews, and deployments.
- Streamlined **Git workflows** using feature branches, enabling consistent deployment velocity and reducing merge conflicts.

Projects

AI-Powered StudyForge – Course Builder App

Mar 2024 – Apr 2024

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Gemini AI

[Live Demo]

- Built an **AI-powered tool** that generates course outlines, flashcards, and quizzes within seconds.
- Automated manual course creation workflows, reducing preparation time from hours to minutes.
- Improved **query performance by 30%** through Neon DB indexing and optimized joins.
- Delivered an educator-focused UX and implemented secure onboarding with Clerk, **reducing login/auth issues by 40%**.

SavingsXpert – Expense Tracking Platform

Feb 2024 – Mar 2024

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Tailwind CSS

[Live Demo]

- Developed a **personal finance platform** for tracking budgets, expenses, and savings goals.
- Built a responsive dashboard with real-time data visualization, **reducing load times by 40%**.
- Integrated Clerk for secure authentication and Tailwind CSS for a polished, responsive UI.
- Optimized backend performance using PostgreSQL indexes and relational modeling, improving data-fetch efficiency.

Awards & Certifications

- **HackerRank Software Engineer Certificate** : Validated coding skills following the completion of **300+ DSA** problems across LeetCode and HackerRank.
- **MERN Stack Development – CodeHelp** : Completed the program by developing **3 full-stack** capstone projects, demonstrating mastery of the MERN stack.

Education

BTech – Computer Science & Engineering

Graduated: 2025

Barkatullah University Institute of Technology, Bhopal

CGPA: 7.6 / 10
